Hilton Instruments and Tricyclic join forces to provide a complete oilfield laboratory supply service

Aberdeen, August 31st 2009:

Tricyclic Limited, a leading provider of integrated oilfield consultancy services, are teaming up with Hilton Instruments Limited, the UK's leading independent supplier of oilfield laboratory equipment, in order to provide clients with a complete turnkey design and supply service for modular oilfield laboratories.

Under this agreement, the expertise of both companies will be utilised to provide an initial laboratory design and consultation service, with a full laboratory supply package, conforming to international standards and regulations. In addition, they will also provide full equipment installation, commissioning and training services.

Kevin Norrie, Managing Director of Hilton Instruments, said, *"Together, the vast amount of experience that our personnel have acquired allows us to design modular laboratories to international standards, and recommend laboratory equipment tailored to our clients requirements. In addition, we would ensure that this equipment is correctly commissioned and operated by trained personnel"*.

Malcolm Campbell, Operations Director of Tricyclic Limited, said *“This agreement allows us to provide a complete Turnkey laboratory solution to our clients and consolidates our aim to provide the best oilfield laboratories in the world, with highly trained and competent staff”*.

Hilton Instruments and Tricyclic have already secured a complete turnkey laboratory supply contract for a new build FPSO in Singapore.

Hilton Instruments Limited will be exhibiting on Stand 442 at Offshore Europe this year.
